Kolkata, India | ankitakundu1190@gmail.com | +91 7044288213 | [LinkedIn](#) | [GitHub](#)

Data Analyst pivoting from 2+ years content strategy. Strong in SQL, Python, Excel, Power BI, DAX for ETL + visualization. Built end-to-end projects on 1,000+ records: identified revenue drivers, flagged 75% MoM drops, delivered KPI dashboards. Seeking to drive business decisions with technical + storytelling skills.

TECHNICAL SKILLS

Data Analysis & Viz: Power BI, DAX, Power Query, Tableau, Advanced Excel

Databases: MySQL, SQL Server | JOINS, Aggregations, CTEs, Window Functions

Programming: Python | Pandas, NumPy, Matplotlib, Data Cleaning | Web Scraping, Git

PROJECTS

1. Bookstore Sales Analytics Dashboard | Power BI, SQL, Python | May 2026 | [GitHub](#)
 - Built 2 ETL pipelines: SQL for cleaning + Python with built-in functions to implement manual LAG logic for sales drops
 - Analyzed 1,000+ records: Self-Help 37.5% revenue share, Kolkata VIP city with 9 drops, The Alchemist most volatile with 3 drops
 - Designed Power BI dashboard with DAX: Jan peak INR 2,397 → Dec stock-up rec, flagged 75% MoM decline for investigation
2. HR-Employee Attrition Analysis | SQL, Power BI | June 2026 | [GitHub](#)
 - Analyzed attrition for 1,470 employees using 8 SQL KPIs + DAX measures
 - Identified Sales Rep role: 39.76% attrition vs 16.12% company avg. Sales dept paradox: 7K salary but 20.6% attrition
 - Delivered 4-visual interactive dashboard revealing key retention drivers
3. 3-Sided Food Delivery Performance Dashboard | SQL, Excel, Python | June 2026 | [GitHub](#)
 - Analyzed 25,100+ orders across Customer, Restaurant, and Courier datasets to identify delivery delay drivers
 - Performed EDA in Excel and built end-to-end Python pipeline using Pandas + NumPy to merge data and flag delays > 45 mins
 - Created 6 visualizations in Excel + Matplotlib; key finding: Rainy + High traffic = 77 min avg delivery vs Clear + Medium = 49.9 min → 27.1 min delay spike
 - Proved kitchen prep contributes only 0.6-0.8 min to delays; recommended traffic-based dispatch and weather-surge pricing to reduce variance

WORK EXPERIENCE

Freelance Content Writer & Editor | Self-Employed | Oct 2020 – Dec 2022

- Produced 50+ data-backed articles for 10K+ monthly readers. Increased client engagement 30% via GA + SEMrush
- Managed 5+ concurrent clients: stakeholder requirements + publishing deadlines

CERTIFICATION

Complete Data Science Training – Udemy | In Progress | Python, Statistics, ML, Deep Learning

EDUCATION

B. Tech, Computer Science & Engineering | Narula Institute of Technology | 2016 – 2020 | CGPA: 8.6/10
